**Preferred Disaster Debris Management Site Criteria**

- The site is owned or controlled by municipal or state government.
- The site has easy access, including being near the area of debris generation, easy to enter and exit, and near transportation arteries.
- The site is ready to use as a debris management site without extensive site modifications.
- The debris storage and handling areas would be at least 100 feet from property lines.
- To the maximum extent possible, the site location minimizes potential environmental and public health impacts, including considering setbacks from public water supplies, surface water bodies, and residential dwellings and avoiding areas such as flood plans, drinking water Zone IIs, and Areas of Critical Environmental Concern.

If any of these criteria are not met, please explain why not and how any concerns regarding that criterion would be addressed: \_\_\_\_\_
